MAY BOARD BRIEFS

We made it, it's May and time to get ready for the outdoor pool to open for the season, from Memorial Day to Labor Day (may every day be sunny and warm!) There will be new lifeguards to meet as we have a new pool management company, Continental Pools. So do come meet the staff at the outdoor pool and enjoy just being at the pool.

Our indoor pool will be closing in order for us to get needed pool ceiling repairs done. The rest of the Fitness Center will be in operation as usual and the repair work will be done before it is time to close the outdoor pool. We thank the Facilities Committee and CAMP Management for helping the Board get all this work organized so quickly.

We also thank CAMP Management for working on the new Point of Sales (POS) which is in place, as well as the new Website which will become operative this month. Management will provide tutorials on use of the website navigation. We did this the last time we changed over websites and we all found them very useful, even the super techies!!

Further, we are actively seeking new vendors to run the Food/Beverage amenity at Heritage Hunt. Requests were received from 8 vendors on 5/6. The Board, with the assistance of the Food & Beverage Consultant Michael Sternberg, are reviewing the proposals to find the right one for Heritage Hunt.

We are also seeking a vendor for the Golf course area. GGA/Partners was hired to be the Golf Operations/Course Maintenance Consultant and they are at work collecting RFP's so a decision can also be made for that area. The Board thanks UTP for their continued professionalism as we work through this transition period.

We have numerous projects on going at the same time including the above as well as working on Master Plan Phase 1 Clubhouse and Marsh Mansion parking lot expansion, as well as monitoring PWCSA work on the new pump station and 24" force main. The Board, as well as Management, makes every effort to keep the information flowing to the community in a timely manner. However, we are told that more information should be made available more quickly. We certainly are open to ideas on how this can be done. We request that ideas, issues and concerns be

sent to the Board at boardofdirectors@heritagehunt.net. We do like these "in writing" so we can better answer and work on these matters. There are 2 televised Board meetings a month. The dates in May are May 13 and May 23. May 13 is at 9:30 am in the Mt. View Room and May 23 is at 1 pm in the Ballroom. Do plan to attend or at least watch on HHTV channels 970/971.

The following resolutions were approved at the 3/28 Board meeting. Because of Horn publishing dates they are appearing a month late. For a faster review do check the HH website as the minutes are posted 2 weeks after each meeting.

- Approved Continental Pools to do white coating on the outdoor pool.
- Approved a Level 2 Reserve study to be done by Building Reserves.
- Approved added funding for 4 more resident excursions.
- Approved Charter revisions for Architectural Review, Budget and Finance and Investment/Cash Management Committees.
- Approved a modified resolution allowing purchase as needed of Golf Course Maintenance equipment.

Stay safe and well!

COMMUNITY COMMUNICATIONS

COMMUNICATIONS FOCUS GROUPS

In follow-up to the town hall on March 26, 2024, the Board requests 90 minutes of your time to participate in one of two focus groups on identifying solutions that will take communications to the next level in Heritage Hunt.

Two focus groups will be held on May 7 at 10:00 – 11:30 am and 1:00 – 2:30 pm. Both focus groups will be located in the Mountain View Room of the main Clubhouse.

Each focus group will be limited to 12 participants. The groups will be comprised of resident-owners who have lived in Heritage Hunt for a certain number of years. Categories include: 1-6 years, 7-12 years, and 13 years or more. When signing up, please list your move-in year.

By May 2, four participants from each of the three “move-in” categories will be selected randomly for each focus group. This will help achieve a mix of participants who may have different perspectives about living in Heritage Hunt.

If you have a specific comment or suggestion relating to communications, please send comments to the boardofdirectors@heritagehunt.net. If you do not wish to participate but still have a suggestion, please submit that information.

Deadline for sign up is May 1. Be sure to sign up today at boardofdirectors@heritagehunt.net and share your solutions with the Board on this important topic.

CROSSROADS CONNECTION

Earlier this year Crossroads served 300 children. Soon the demand grew by 30% to a total of 390 children. They are students in our local western PWC schools who suffer from food insecurity. Through food drives and donations from individuals and businesses, and via grant monies from

local partners, the students receive non-perishable food products courtesy of Crossroads volunteer packers and drivers. The bulk of the administrative costs that the organization incurs is for rent of its facility where all food is stored and volunteers meet to pack. There are zero payroll expenses.

The news of food insecurity as it pertains to our student population has caught the attention of young people who do not need food assistance. These kids have taken on leadership roles to organize food drives. At Ronald Reagan Middle School, Tyler Phillips, a member of the National Junior Honor Society, spearheaded a recent successful drive which provided many products that are now on the shelves of our working location at the business park near the intersection of Catharpin Road and Route 55.

Haymarket Church continues to provide support to Crossroads-Connection by providing food donations, volunteers, and financial support. Shepherd of the Hills Lutheran Church also continues to collect food non-perishables with periodic food drives. All communities are to be commended for their continuing generosity to include Heritage Hunt!

EMERGENCY PREPAREDNESS COMMITTEE

WHERE IN THE WORLD IS HERITAGE HUNT

Have you ever wondered where in the world Heritage Hunt is? It may seem like a silly question since we all know HH is in Gainesville, Virginia. But do you know specifically where Heritage Hunt is by latitude and longitude? The Emergency Preparedness Committee does. And we know the latitude of each and every residence, facility, pond, bocce-tennis-pickleball court and golf hole and tee. In case it comes up during one of HH's Trivia Contests, the center of Heritage Hunt is located at 38.81461 North and -77.598709 West.

Although some of you may say, "so what", Geographic Information Systems (GIS) Analysts use geographic data (like latitude and longitude - among other data) to make maps and interpret geographic relationships. If any of you are or were GIS Analysts, please contact Al Grimmig (epcalgrimmig@gmail.com).

The EPC just completed detailed maps of Heritage Hunt, that have been printed on 36" x 48" foam boards. These maps will be used during Emergency Training Exercises and actual emergencies to identify the location of medical emergencies and the location of damage to facilities or utilities. Each residence is identified by house number so we can make sure we send assistance to the correct place. Knowing where things are in relationship to other things around it is important, especially if there is damage to our roads that require the rerouting of traffic, or the evacuation of parts of Heritage Hunt during emergencies.

One of the maps will be on display in the Clubhouse library. If you would like to see a digital copy of the HH map, let the Emergency Preparedness Committee know using the following email address: emergencypreparedness@heritagehunt.net.

April showers bring May flowers, and it brings out our Emergency Volunteers (EV's) to retrieve the Fire Hydrant stakes that we installed in December.

This picture captures several of our stalwart EV's (Joe Beres and Neil Kelley) and Zone Directors Al Grimmig and William Kreykenbohm, as we retrieve our Fire Hydrant Stakes. So, to join Joe and Neil, and the other Emergency Volunteers, please reach out to the Emergency Preparedness Committee using the email address provided above.

So, until next month: Be Safe – Be Prepared – Be Vigilant.

Al Grimmig - Emergency Preparedness Committee

FACILITIES COMMITTEE

Residents: The Facilities Committee needs your help. We are working on the final design aspects of our Clubhouse Lobby remodel, and there is an opportunity for you to help us. The artwork in the Blue Ridge/Mountain View Hallway is a Virginia theme, and we have decided that we would like to continue this Virginia theme with several coffee table-sized books about Virginia - landscapes, birds, wildlife, history, famous places, etc. If you have an abundance of Virginia themed books, would you be willing to donate some to help us decorate our main lobby? Beginning Monday, May 6th - Wednesday May 8th, you may drop off your donation at the Front Desk. Please be sure to have your name and phone number on a sheet of paper inside the front cover. The committee will look through the donations and choose a variety of books that we will use to accessorize the lobby. We only need twelve books total, so we will let you know if yours is selected or not. We look forward to this final touch to the decoration of our main lobby and hope that these beautiful books will add a warm, welcoming gesture. Thank you in advance for your thoughtful donations. Please enjoy perusing through these appreciated books.

FOOD & BEVERAGE COMMITTEE

What does the Food & Beverage Committee do?

The primary goal of the Food & Beverage Committee is to support and improve the “active lifestyle” of our residents in a financially responsible manner. The committee’s responsibilities include collaborating with our club services vendor and advising the Board of Directors on any issues relating to the food and beverage amenities, as we strive to ensure that they take place in a welcoming environment and consistently provide a variety of offerings at competitive prices with superior service.

The Food & Beverage Committee is an advisory committee, (as are all committees) only. The committee monitors the club services vendor as it oversees the operation, maintenance, improvements, and enhancements for the HOA-owned facilities including the Red Oak Bar and Grill (ROBG), Clubhouse Ballroom, and the kitchens in the Clubhouse and Marsh Mansion. The committee works with the Heritage Hunt club services vendor to bring food and beverage social events planned throughout the year to entertain Heritage Hunt residents.

During scheduled committee meetings, the club services vendor makes recommendations, or the F&BC makes recommendations for services rendered. If the committee agrees on the recommendation, a vote is taken. If the vote is successful, the recommendation is advanced to the Board of Directors for its decision and implementation. The Food & Beverage Committee cannot implement any recommendations, only the Board of Directors can implement changes. The Food & Beverage Committee only advises, recommends and/or monitors the food and beverage amenity.

GARDEN CLUB

Gardeners, Virginia's bird population has been in serious decline. The best sanctuaries for birds are undisturbed expanses of forests and meadows. Anyone can see that those are rapidly disappearing in Northern Virginia, and where they remain, they are shrinking below the size needed for many species. Those in charge of any patch of land can help some of these birds by adding plants to expand the habitat value of nearby parks and natural areas.

What does it take to provide sanctuary for birds? The first requirement is that the plants be native to the local ecosystem. This is because the diet of baby birds consists primarily of caterpillars, and most caterpillars can only eat the plants with which they evolved. By far the biggest source of food for caterpillars is the leaves of large native shade trees, by virtue of their immense canopy compared to smaller plants. The second requirement is to provide food for the adults. Adult birds also require caterpillars, plus other bugs for protein. They also need seeds and fruits from smaller native trees, shrubs, vines, and flowers. These are tailored to their nutritional needs, unlike many non-native plants. Different bird species feed and nest at different heights from the ground, so native plants are needed at all levels. You may notice the preference of sparrows and robins for the ground layer, bluebirds for the shrubs, bluejays higher still, and woodpeckers in the canopy. As some birds require the lower level is the reason why it is important to keep cats indoors.

Another reason to install native plants at the ground layer is that many of those caterpillars feeding up in the trees spend part of their life cycles sheltering on the ground. They cannot find the habitat they need in mounds of mulch, not to mention in lawns where they get chopped up by lawn mowers. What does provide shelter is native perennials and dead leaves. So once you have your trees and shrubs in place, you can have the fun of exploring numerous native ground cover options, gradually expanding the landing pad out to the drip line as the trees grow. Some of this could involve a new garden sense for some of us here at Heritage Hunt. Come to Garden Club to hear how we create our garden arrangements! Our next meeting is May 23 at 10:00 in Marsh Mansion.

GENEALOGY CLUB

The Genealogy Club will meet on Monday, May 20, at 2 PM in the Mountain View Room. The focus will be on how to decipher passenger lists on Ancestry.com. Most of us use Ancestry in our research work, and all of us have ancestors who at one time or another immigrated to America. The video that will be presented will provide insights in how to find your ancestor's passenger list and what you will learn when you do. Discussion will follow on this topic.

Since May is the month that "hosts" Mother's Day, readers may enjoy the following three books about women and gain a sense of how women lived long before any of us were born:

"A Midwife's Tale: The Life of Martha Ballard, Based on Her Diary, 1785-1812," by Laurel Thatcher Ulrich. In 27 years the amazing Martha attended 816 births, going to and fro in all kinds of weather in Hallowell, Maine. She also discusses domestic life in this fascinating book.

"Brought to Bed: Childbearing in America 1750 to 1950," by Judith Walzer Leavitt.

This book and the above book can be ordered through www.abebooks.com or borrowed via Prince William County Public Libraries' Interlibrary Loan system.

"Secret Voices: A Year of Women's Diaries," edited by Sarah Gristwood, was just published this past February by Batsford (a London publisher). In 528 pages, it contains extracts from women's diaries from the 17th through 20th centuries, describing their feelings about being female in a male-dominated world. Frustration, thus, is commonly expressed.

If you are interested in researching your ancestors but don't know where to begin or how to

continue, members of our club will provide you with a "Genealogy Beginners Session" on an individual basis if you contact our President Bob Gawrelski via email at bobgski@gmail.com. He can arrange this session for you if you allow him a week's notice.

THE GIVING CIRCLE

"No one has ever become poor by giving."

Anne Frank

The **Giving Circle of Heritage Hunt, Inc.**, is a HOA-chartered group within Heritage Hunt providing support to many charitable organizations in Prince William County, Manassas, and Manassas Park. All organizations we support are focused on families in need. We are a group of people who care about those less fortunate and want to give them a helping hand. *We don't become poor by giving as Anne Frank said, we become richer in heart and spirit.*

Founded in 2008, **The Giving Circle** opens membership to all residents of the Heritage Hunt community. The Membership annual pledge ask is \$365, just \$1 per day, or more.

Each member can rest assured their donation will be well spent and appropriately allocated to a 501(c)(3) charity in our local community.

The Giving Circle vets all grant applications in a meticulous process including a review of:

1. *Budget & Financial Statements:* Each charity must have a public, board-approved annual budget that details projected annual expenses.

2. *Fundraising Efficiency:* **The Giving Circle** awards grants to charities for specific projects. All grant dollars must go directly to the needs of the charity's clients for the project stated.

3. *Tax Exemptions:* All donations will qualify for a tax deduction, depending on your filing status, because **The Giving Circle** is an IRS approved 501(c)(3) public charity.

Another focus of **The Giving Circle** is to view one of our **charitable projects, in action**. On Wednesday, May 22nd members and their guests are invited to visit the Prince William County Sheriff's Office to learn more about **Project Lifesaver**. The specially trained deputies, at the PWC Sheriff's Office, will demonstrate the most reliable technology locally available to quickly locate and return wandering adults and/or children to their families and caregivers. **Giving Circle** members who wish to find out more information may email Barbara Kenefake at bkenefake@aol.com.

Master Deputy Ilyan S. Bakalov, Program Coordinator

If you are not a member of **The Giving Circle**, but are interested in joining, email Joanne Forrester at jmbforrester@comcast.net.

By joining the **Giving Circle**, you will have a greater positive impact on those in need in Prince William County because of combining your donation with others. In 2023, **The Giving Circle** awarded 17 grants to local charities totaling \$91,700. **Pay it forward and join us today! You'll be glad you did.**

GREEN NEIGHBORHOOD GROUP

SEMI-ANNUAL TRASH PICKUP

Hi all! The Green Neighborhood Group (GNG) will again do a trash pickup on Catharpin Rd on Thursday, May 13th starting at 10am from the back gate. We have done these semi-annually for a number of years and from what we collect we feel this is a valuable effort for the GNG.

Co-Chair Joan Donnelly is “trash master”. Joan advises that helpers wear good walking shoes, a sun hat and bring gloves. The GNG will provide the trash bags and we will dispose of trash that is collected. We actually have a lot of fun doing this and trust us, we find some odd ball items.

So come join us and do contact Joan at brooklynjoan@comcast.net or at 703-743-1325 to relate you are coming. We do not want to leave anyone behind.

Questions about this GNG project or to learn more about what GNG does, please contact Joan or Kathy Vergano at kvergano@aol.com or 703-743-1903.

HHWGA-18 LADIES OF LINKS NEWS

Hopefully the April showers we experienced will lead to lots of May flowers! In spite of the showers in April our 18-Hole Ladies' League enjoyed being back together and back on the course. Play will continue every Wednesday at 8:30AM (weather permitting). Please arrive at the course no later than 8AM to ensure time to get checked in and do any practicing you might want to do before we head to our assigned starting holes.

Please also remember to sign up for our League play each week no later than the Monday prior to our weekly League event. It is important to have accurate sign ups to help make it a bit easier to form our foursomes each week.

A big "Thank You" to Bettie Layman who provided this photo of some of our League members who participated in the "Icebreaker" tournament in March! It was a fun day of play and the weather was GREAT, unlike the weather for some of the "Icebreaker" tournaments in the past.

Left to Right: Becky, Libby, Bobbi, Mag, Diane and Maureen

If you are interested in playing golf with our 18-Hole Ladies' League please contact me (mdierdorff@comcast.net, 703-743-2067) or learn more about the League by checking out our page on the HH Website:

www.heritagehunt.net site, click on Golf Central; then League; then Ladies 18 Hole.

Margaret Dierdorff, 18-Hole League President

LADIES 9-HOLE GOLF LEAGUE NEWS

The Nine Hole League ladies were not able to play golf on Wednesday, April 3rd, as planned, because it was a chilly, rainy day! It may be the first time that I can remember since I have been in Heritage Hunt (eight years) that no 9-hole ladies ventured out in the weather! (I called the pro-shop to confirm that no 9-holers played.) Of course, we were all very disappointed, but we know that there will be sunshine in our future. I'm crossing my fingers for a good day on Wednesday, April 10th!

At our kick-off meeting on March 27th, we had a new lady named Jean Rice sign up to play with us for the season! Welcome Jean! We had to, however, say goodbye to a long-time member, Ellie Rewald. She and her husband are moving to South Carolina, and she will be **greatly missed**. Her outgoing, fun personality made my golf experience here so enjoyable for me, and I know others feel the same.

John Yancy, the head pro here at Heritage Hunt, joined us at our kick-off meeting to discuss the coming golf season. The course will be closed for several months starting in July for a necessary re-grassing project. It may be mid-September before we can play here again, but we were made aware of this in advance and have begun to re-search the possibility of reciprocal venues in the area. John will take the lead on this, so we are thinking positive thoughts. Also, our Nine Hole Event Planners, Candace Mo and Pam McBride, have at least two other venues in mind to pursue so that golf fun can still be had on Wednesdays!

To new ladies in the community – Please don't let the re-grassing project stop you from looking into the possibility of signing up to play with our Nine-Hole Golf group, or from inquiring about taking a golf lesson, and or from learning more about the wonderful game of golf! I'm convinced you won't regret it!

HERITAGE HUNT LITTLE THEATER (HHLT)

HHLT has just completed its 40th production on the Great Oak Ballroom stage with the presentation of Hogwash, a comedy directed by Sally Peterson, produced by Andy Mays. The cast

included Valerie Morris, Helen Gillikin, Nancy Foulz, Tom Taggart, Kathy Young, Jerry Campbell, Dawn Nguyen, Billy Clay, and Alec Winfrey. Multiple members of HHLT participated behind

the scenes as stage crew, tickets sales committee, design and publicity etc. A huge thanks goes to LSTV for their usual excellent service for our sound and light needs.

Our latest production marks the unbroken succession of 40 plays presented by HHLT in our 21-year history at HH.

Continuing our tradition of awarding yearly scholarships to theater arts students we are contributing to both Fauquier Community Theater and the Arts Factory in Manassas to help needy students attend their children's programs this summer.

If you would like to join HHLT or become a patron of the theater, please contact Membership Chairman Billy Clay (bclay1976@gmail.com).

LSTV CORNER

All the people at LSTV are there to serve our community. So, we are always looking for ways through the technology we support, to enhance the "go to" experience when someone goes to a concert or goes to Trivia Night or to Movie Night. You might not actually see what we are doing, but you absolutely will feel some of the changes and enhancements we are making. Below are two of our new capabilities.

New LSTV Console Design

LSTV has upgraded the console in the Ballroom. The new design has a raised floor that allows for cabling from the console to the control rack. (There is a lot of equipment in the rack right next to the

console. Cabling can now travel under the floor, out of the way, to the equipment on the console, versus across the floor where someone like me can dislodge it.)

The console is two feet longer to provide spacing for up to four people to operate the audio and video equipment. We now have adequate room to operate cameras, computers, lighting, plus audio equipment for concerts, committee meetings and presentations, like Town Hall meetings in the Ballroom more efficiently and adding greater capabilities that enhance the total experience.

If you see someone at the console, please feel free to join us anytime to get a close look at our new capabilities.

Video Editing

The biggest challenge to Video Editing is having a person with the knowledge, equipment, and creativity to be able to pull something like this off. That person is Ralph Pugh. In his words:

After taking many megabytes of recordings, the challenge for the video editor was to...

- Put it all together into a meaningful storyline that has a flow.
- Chop, splice, and edit the recordings to capture the best parts and keep it succinct.
- Attempt to make it more visually interesting by zooming in on certain video shots, splitting the screen to combine pertinent photos into interview videos. Adding AI generated voices to introduce the scenes. Adding music and transitions enhances viewing pleasure.

When you watch a video, we create or the videos on the back wall at concerts, they typically have been enhanced by our video editor. We are continually tinkering with what we can do to make the experience better.

All this technology might seem daunting, but please instead of thinking, "Oh no, technology is too hard," think Yes, opportunities to learn and grow!" Our brains aren't done yet. Let's grow together.

Please, come and join us and you will find out more.

PICKLEBALL CLUB

MIKE ANZILOTTI

Meet Mike Anzilotti. Mike, his wife Jane and his mother, Terry, moved to Heritage Hunt in 2008. They have two grown children and 4 grandchildren.

After graduating from Virginia Tech, Mike began his work career in an accounting position with First Virginia

Bank. Over the next four years, while raising a family and working full time, Mike attended George Mason at night and successfully secured his MBA. Over a 35- year career, he rose to the position of President and CEO. After his bank was acquired by BBT, he decided to retire. A decision short-lived as he returned to work for the next 5 years as the President of a small bank and later, 5 years as Chairman of Access National Bank.

Mike has held a handful of Board of Director positions, most notably 8 years on Virginia Tech's Board of Visitors and Chairing George Mason's Foundation Board. During his career, he has had a vast amount of experience with Fairfax County Government, State and local Chambers of Commerce and statewide business groups advising and working with the Governor and legislature. He would tell you his most challenging job was Commissioner of Centreville Little League.

Early sports included tennis, handball, and racquetball. Eventually though, Mike followed his father's footsteps into Pickleball. Interestingly, Mike's father, Domenick Anzilotti, started playing the game in the early 90's (pictured in the next column, in 1998 at the Vienna Community Center) when it was a relatively unknown sport and played with wooden paddles. Mike hits our courts 3-4 times a week and alternates other days with golf and gym workouts.

Mike and Jane enjoy travel, whether by car, plane, or cruise. They usually do 3 trips a year and

vacation in Marco Island, Florida, every year for the winter months.

Mike's advice to new players: "be careful, be patient, enjoy the competitiveness but mostly enjoy the camaraderie! We may be in the twilight of our lives, but we are going down swinging!". With so many friendships created on the courts, Mike views the game of pickleball as a great gift.

See you on the courts!

HH PHOTOGRAPHY CLUB

The Heritage Hunt Photography Club (HHPC) provides the opportunity for photographers, from beginner to expert, to learn, develop and hone their photographic skills. HHPC member interests range from landscape, wildlife, portraiture, architecture, floral and more. Camera interests range from full-frame 35mm digital to mobile phones. Our members enjoy monthly meetings with guest speakers, off-campus photo 'safaris' (day trips and overnight), workshops, photo sharing, and photo exhibits. Members have the opportunity to exhibit their work in the HH clubhouse. Our events and activities are meant to both educate and inspire.

(National Zoo; photo: Sarah Skerker)

We've been busy. In March we held a photo safari to the National Zoo in preparation for our bi-annual exhibit in the Clubhouse (Subject: Wildlife). Our April meeting included a wildlife photography presentation by a recognized expert, and we enjoyed member photos of spring gardens and landscapes. In late April we held an overnight safari to beautiful Cape May New Jersey. We'll be sharing photos from that trip at our May meeting. That meeting will also feature several master photographers describing the approach they take in creating in high-quality, attention-grabbing photos.

Please join us at the next HH Photo Club meeting 7PM May 28 in the HH Ballroom. There's no obligation to join but we think you'll enjoy yourself meeting a bunch of great people and you'll learn a whole lot. For more information visit us at heritagehuntphotoclub.org, or contact our President, Rob Coulter at racoulters@gmail.com.

HH CHAPTER OF THE AMERICAN WINE SOCIETY

May is the month we see “Rosé All Day” signs posted at many Virginia wineries, with this pink wine popular for Mother’s Day outings, whether at one of our local wineries or at brunch. Rosé is the perfect wine to kick off the start of summer, it’s served chilled, is fruity and food friendly and the new vintage of rosé is released each year in the spring.

So, what is it about this pink wine which makes it so popular? It can range in color from the lightest, palest pink, to a beautiful salmon color and even a vivid purple-fuchsia? I think it’s popularity is tied to the wine’s versatility. It’s great to sip all by itself but also pairs well with all kinds of food and is made in many different styles. Favorite pairings include creamy cheeses such as goat cheese or mozzarella just about any Mediterranean style fare, shellfish and all types of tomato dishes.

Rosé is made with red grapes; almost any red grape from Grenache to Cabernet Sauvignon. It spends very little time during the winemaking process on the red grape skins, resulting in the pink (vs. red) color. It can spend less than an hour but often spends 12-24 hours on skin contact. The wine club sampled Arterra’s Rosé, a deep purple pink, robust rosé made with Petit Verdot and Cab Franc at our March event and Slater Run Vineyard’s Rosé, made in the Provence style, at our April wine club event.

We’ll skip rosé wine at our Tuesday, May 21st event with Williams Gap Vineyard and are looking forward to Bridgette Smith, their general manager,

presenting a selection of white and red wines made from their 35+ acres under vine in Round Hill. Watch your email for sign up links and if you’re not getting our emails drop a note to heritagehuntwineclub@gmail.com.

And if you have never tried a rosé wine, don’t want to commit to buying a bottle, have a glass of the lovely Provence rosé wine at our clubhouse bar!

HERITAGE HUNT WOMEN'S ORGANIZATION (HHWO)

Queen Elizabeth II was never seen in public without a gorgeous hat and a coordinated fetching matching ensemble. When meeting Queen Elizabeth for her visit in 1976 in Washington, D.C., First Lady Betty Ford was decked out in a white and yellow outfit and a magnificent hat with a yellow ribbon around the crown that fluttered down her back. Today, we have wonderful opportunities to showcase our lovely millinery – the Kentucky Derby, Royal Ascot, and our own Virginia Gold Cup Races!

MAY PROGRAM

Our May program will feature a spectacular fashion show from Horse Country and its gracious owner Marion Maggiolo. For over a half century, Horse Country has stood as a beacon for equestrian enthusiasts renowned as the premier destination for all things for horse, rider, and dog-related. Horse Country's legacy is one of passion, quality, and a commitment to providing a one-of-a-kind shopping experience for country-loving people everywhere. At this fashion show, featuring models from HHWO, Marion will showcase the fabulous summer hats, handbags, scarves, and assorted country clothing that defines Horse Country as the go-to destination for everyone.

The Lunch Ladies have selected a delectable menu with an appetizer of baked brie, with raspberry relish and herb crostini. The buffet consists of a pecan pear salad, roasted sweet potatoes, butternut squash with braised kale, and beef brisket. Dessert is yummy key lime pie!

FUND RAISING AND SPECIAL PROJECTS

At our May meeting, we will be collecting gently used children's books from your shelves, or those of your grandchildren to help promote literacy in our area. These books will be disturbed to local schools and Boxes of Basics. Last month our ladies generously donated 200 vases for Doug Burrows of The Flower Gallery to use when he donates flowers to local nursing homes. I tip my hat to the wonderful ladies of HHWO!

BIRDS

It's that time of year again – the birds are back!

Yes – they are back and they are building nests to have baby birds. That means that the smaller birds are looking for secure places to put their nests and what better place than in your attic? Your attic is safe from predators and warm for the babies.

How do they get there? When the builders installed the porch lights in the community, they used the cheapest ones possible.

Those lights had a very small base that screwed into the ceiling of the porches. The grooves in the soffit provided a superhighway for small birds to enter the house under the light fixture.

Quick solution – get a light fixture with a larger base such as the one illustrated above. Some folks enhanced the base by adding a flat disk under the fixture that extends beyond its edge just to give the little blighters more of a challenge.

In addition, I hang a small owl on the porch. Our feathered friends don't like predators and avoid the statue. In fact, after five years, I haven't had to move the statue at all and the birds have not come back.

I've also heard that people mount about 5 feet of garden hose wrapped to look like a snake near the light fixture. Owl or snake, either will scare the budgies off.

Before you replace your light fixture take a quick look at Page 43 of the 2023 Design Guidelines (available on the Heritage Hunt website) for guidance on color of the fixture.

DOING THE RIGHT THING...SOLAR AND MORE

Since I moved to Heritage Hunt from Pennsylvania about 3 years ago, I have thought about the many ways we are NOT helping our environment here in Northern Virginia,

I've been concerned about our Earth's environment for years. Following a visit to England in the 1980's when I discovered I couldn't buy groceries because I didn't bring my own bag., my husband and I arranged with Webb Mfg. (where my husband was CFO) to make 60,000 mesh bags with the backing of Sierra Club and a local grocery chain. We then promoted bringing your own bag (BYOB) and sold them at Fresh Fields (later Whole Foods). We sold many of these bags at the Earth Day celebration in 1990 in Philadelphia. I would see people with them later at Farmer's Markets and stores.

In Pennsylvania, our ECO group at our church got very involved in everything from discouraging pesticide use on area lawns, buying organic to protesting the toxic Monsanto "Round Up". We had workshops to make solitary bee hotels as we heard that Neonics were wiping out bee pollinators. We paraded in bee costumes with signs "NO BEES NO FOOD". We had movies and talks about West Virginia removing mountain tops to mine for coal, doing terrible damage to the waterways, towns, and views, We promoted alternatives to gas and coal such as geothermal heating and cooling and solar power,

Our church garden taught kids where food comes from and the importance of pollinators, composting, and planting native plants, even making rain barrels.

We were the first church to buy wind power and soon added solar to the roof. We marched on Washington to fight the pipelines from Canada, and we fought against fracking in northern counties of PA protesting the damage to the environment and the leaking of methane, the most potent greenhouse gas.

A dream now is to one day see solar arrays at all large parking lots, creating electricity while shading cars. I am sickened seeing all the food waste, the plastic bags, and pesticide use as we strive for perfect lawns and convenience, unaware unaware of the stinky result in landfills, or the plastic that pollutes ocean life..and us.

I'm encouraging my neighbors to collect their

kitchen waste in compostable bags (which can be frozen) to take to the Balls Ford recycling center where hopefully the Farm group that collects it for fertilizer will add more containers as we advocate for reducing our waste,.

Last December, with my daughter's help, I sold 30 paintings and with the proceeds decided to put a solar array on my south-facing roof,.

As data centers proliferate, the future of our electricity supply is in doubts, so I thought it might be smart to save on my electric bill and use the sun for energy. The tax write-off is a real bonus. Solar will also add at least 5% to the value of my house, and is simply the right thing to do.

Call me with questions at 610-996-4699 or 571-248-0852.

Take advantage of the government's current incentives while they last...and make use of the long summer days,

Thankfully our HOA has been very quick to approve the design and my company plans to install it right away. The sun will soon be powering my air conditioner, I only wish I had an electric car.

MEDICAL SUPPLY DISTRIBUTOR HELP NEEDED

For many years we have had the gift of two wonderful residents who have dutifully distributed the loaning of medical equipment in our Community. Mary Kay and Bob Dunn have provided a wonderful service to our residents. It is time for the Dunns to step down and a new helper to emerge. If you can volunteer for this position, it would be very helpful!

All medical supplies are donated and you would have all the equipment in your basement or garage. As the need arises, people would call you to borrow items such as walkers, canes, diapers, shower chairs, heating pads etc..

This loaning of medical equipment is such a wonderful gift for our community. We never know when we may have the need to borrow something even temporarily.

FEELING DIZZY? YOU'RE NOT ALONE!

Do you ever feel like the room is spinning even when it's not? Well, you might be experiencing something called benign paroxysmal positional vertigo, or BPPV for short. It's actually the most common cause of vertigo.

And here's a surprising fact: In people over 65 years of age, BPPV is responsible for an estimated 30% of cases of dizziness.

But, there's good news! Our physical therapists are experts in BPPV, resolving 90% of cases in 1-3 treatments.

If you've been experiencing brief episodes of vertigo associated with change of head or body position, there's a good chance you have BPPV. And, there's a good chance we can help!

ENGEL & VÖLKERS

A Day of Remembrance.

Memorial Day

As you gather with loved ones this Memorial Day, we pause to honor and remember the brave souls who selflessly dedicated their lives in service to our nation. Their unwavering courage and sacrifice have woven a tapestry of freedom and unity that we cherish today. In their memory, we stand united and grateful for the liberties we enjoy.

SELLERS, as part of our goal to help clients build wealth through real estate, our **FIRST GOAL** is to **PROTECT YOUR HARD-EARNED EQUITY!**

WE DO THIS BY:

Using a "No Hassle" sales process

Getting the highest MARKET VALUE

Having Buyers compete with OTHER BUYERS instead of YOU!

Being on the market only 14 days

You only pay HALF of the Total Commission found in an "old fashioned" sale

SELLERS NET THE MOST MONEY AT SETTLEMENT!!

OUR "VALUE BRANDING" WILL MAKE YOUR HOME STAND OUT FROM THE HERD!
